## BOW ISLAND

From our own Correspondent  
Mr. and Mrs. Wilnot are visitors  
this week to Lethbridge.

Mrs. F. Henderson, of Bow Island,  
was visiting her friends last week at  
Lethbridge.

Mrs. T. Blane left last Saturday  
evening on the eastbound train.

Mrs. A. Newnham wishes to an-  
nounce to her friends she will give a  
social afternoon on Wednesday 7th.  
April, will receive from three till six

Mr. Wm. Knox of Abbotsford, B.C.  
is staying with Mr. A. Egan of Bow  
Island.

Mr. Werts was visiting his family  
here for a short time last week.

Mr. H. Brooks, from Calgary, return-  
ed home last Wednesday.

Mrs. E. Leslie and Mrs. F. W. Tay-  
lor, of Bow Island, were visitors to  
Edmonton last week.

Mr. P. Lamarch, of Winnifred dis-  
trict, was a business visitor to Edmon-  
ton last week.

The baby of S. Mikolas, which was  
nearly stricken a few weeks ago is still  
under medical treatment.

## Masquerade Dance

L.O.O.F. Hall on Easter Monday  
Good Music-Jolly Time  
Admission 50c. to all

Mr. Watson, of Grassy Lake, and  
his sister-in-law, Mrs. Hitchen, were  
visiting friends at Kipp last week.

Master McNab, of Grassy Lake, re-  
turned home last Saturday after  
spending a few weeks with his auntie  
at Lethbridge.

## BOOST THE BASEBALL CLUB.

The Bow Island Baseball Club are  
holding their opening dance in the  
I.O.O.F. Hall Bow Island, Friday  
April 9th. Don't miss it.

## St. Michael's Church

EASTER SUNDAY  
Mass will be celebrated at 11 a.m.  
on Easter Sunday 11th April

## The United Church.

The United Sunday School  
meets every Sunday at 11 a.m.

Special Easter exercises  
morning and evening of April  
4th.

Everybody welcome  
J. Elmer Still, Supt

## Bow Island North

Our own correspondent sat forth  
From his home on the South Saskat.  
Bringing the news of Bow Island,  
North

And yawns that would raise one's  
hat.  
His latest report we are glad to say  
Sure lifts as on wings.

For winter was with us yesterday.  
But today it has turned to spring.

Mr. Karl Peterson, of Conlee View  
Farm, has returned from his lumber-  
ing adventures in B. C. He intends  
putting in a big crop as usual.

Slim Marsden has purchased another  
bunch of young cattle from Mr. H.  
Watson, of Bow Island.

We are hoping that the govern-  
ment will see its way clear to install  
a ferry on the river in this neighbor-  
hood this summer, the proposed site  
being on the west end of the old Lind-  
quist ranch bottom, and the graded  
road on the opposite shore, south of  
Mr. Cutler's riverside farm. This be-  
ing accomplished it will mean quicker  
access to town, for those settlers liv-  
ing north of the river and who have  
20 miles or more to go to such a town  
as Suffield. Bow Island merchants,  
we think, would swell their trade by  
the patronage of these farmers.

Mr. Art Whitney, stock foreman of  
the C. L. & I. Co.'s cow camp on Bow  
River, paid a visit to Slim Marsden on  
Tuesday, at the latter's ranch on the  
river. The occasion was celebrated by  
the exchange of their heavy artillery,  
and now Slim is practicing with a new  
rifle.

## A popular Entertainment

An Entertainment will be given in  
St. Michael's Hall Wednesday 7th.  
at 8.30 the programme will consist of  
A Lecture by Rev. Father FitzPatrick  
and a playette entitled  
"Aunt Jeannine's Money" also a  
selection of Songs and recitations  
Admission Adults 25c, Children 25c.

Hauling feed seems to be the order  
of the day from town. Oh, when will  
the capitol be reversed?

Tuesday saw Mr. W. J. Little, at the  
local coal mines getting his spring  
and summer's supply of fuel, getting  
it in before the spring rush. Wise  
man.

Mr. Reney Evans returned from B.  
C. to his home at Golden Grove farm.  
All were delighted to welcome him  
back, after his exploits in the big  
timber country. He intends settling  
down to the less nerve-racking life  
of farming at which he is, or was, an  
adept.

# HERBERT HOOVER LOOKS FOR CONTINUANCE OF HIGH WHEAT PRICES

"The question of government loans, needs of Europe are larger than our previous estimate. Although the balance of the supply and demand of Europe for 1919 will be marketed without loss to the government—widespread investigation of Europe's needs indicate there will be no surplus."

PARIS, March.—Herbert Hoover, United States food administrator, asked here today whether the United States government would loan the million dollars appropriated to support the guarantee for next year's wheat crop, said:

"The world will have any surplus from the 1919 crop to carry over into next year. Second, what the supply and demand will be for the 1919 crop, and, third, whether the government should deliberately decide to take a loss in order to lower the price of bread."

"As to the supply and demand for the 1919 crop, changes in the world demand during the last month, shown by widespread investigation of the food needs of Europe, indicate that there will be no surplus to carry over into the 1919 crop. The Indian famine has proven so serious that a large part of the Australian wheat must go there at once. In addition, a considerable proportion of the Australian supply, which has been piling up for years, has spoiled."

exported large amounts of wheat. The war famine, loss of seed and lack of fertilizers and anarchy have cumulated to turn these countries into importers of wheat for the whole of next year. Central European seedling will be below normal. The Australian 1919 crop is small; the Argentine crop is no larger than that of Europe. Altogether it would appear now that there would be no bread to waste in any quarter of the world for the next year. Even if the world had the money to fix any, will revolve around several different factors. First, whether we or as though we might see wheat at \$2.50 a bushel as it was in the spring of 1917 if there is a free market in wheat and uncontrolled prices. So much for the 1919 crop. There can be no free market of 30 per cent. of the world's exports. Wheat is controlled by the wheat executive in London."

"As to the 1919 crop, it is, of course, too early to come to any precise conclusion. Our crop looks anything from 10 to 20 per cent. greater than last year. Before the war, Russia, India, Bulgaria, Serbia, and Roumania all made for our present wheat now look pay for it, and if the Bolsheviks did not get more territory."

Without Any Loss  
"Therefore, to all present appearances, it should be possible to market the whole of next year's crop without loss to the government."

"As to whether the government will deliberately take a loss below the price of \$2.25 a bushel in order to lower the price of bread is a matter that will have to be determined by the officials of the day. It appears to me the price of wheat, if there is a free market, may be above \$2.25, and in any event such a loss would be a direct subtraction from the bread prices. Just as it is now said in most of the European countries. There are very great technical difficulties in the way of such procedure in the United States. Furthermore, it would, I believe, be proved upon investigation that to lower the price of flour 50 per cent. would only reduce the price in Medicine Hat this week 10 cents as at present to 7 or 8 cents, because too large a proportion of the increased cost of a loaf since the war is due to higher wages, manufacturing costs and the cost of other supplies."

"These problems will, moreover, need to be solved by some one else, because neither myself nor most of the men in the food administration will be able to continue in the service of the government after next July. We also must earn a living."

## WHEAT and H.C. of L.

Peter Cameron, a prominent farmer and member of the Manitoba G. O. A., at Westbourne, appeared before the Board of Commerce last week and presented evidence to show that the effect of the price of wheat on the cost of living had been entirely overrated. Mr. Cameron had gone to considerable trouble and expense to collect his evidence. He had made arrangements by which the cost of meal prepared in the home was estimated by several Winnipeg women. Detailed accounts of all food eaten, and of the cost of each item were kept. In one case the average cost of 20 meals was 11.3 cents, about one-tenth of which was for bread. In another year the average cost of 126 meals was 15.34 cents, with less than 1 1/2 cents per meal for bread. Two other estimates gave around 14 cents as the average cost of meals, with the cost of bread eaten correspondingly low.

Argument for Farmers  
In his argument for the farmers, Mr. Cameron said it was contended that the high price of wheat was the chief cause of the high cost of living and that wheat regulated the price of all other foodstuffs. "We contend,"

he went on, "that wheat does not regulate the price of all other foodstuffs, nor has it done so during the last five years. When the government in 1917 put the price of wheat down from \$3.16 a bushel to \$2.21 1/2, a difference of 83 1/2 cents a bushel, did other things come down? They did not, but kept going up right along, and while the price of wheat has been fixed for three years all other foodstuffs have gone up. When the price of wheat was fixed, why did not the price of other foodstuffs remain at the same price when the price of wheat was fixed. If the price of wheat regulates the price of all other foodstuffs why does \$3.00 in Minneapolis produce bread 25 cents a pound less than \$2.24 wheat produces bread in Winnipeg? It appears that the Winnipeg regulator of prices must be out of commission and needs adjusting. In January, 1917, I shipped a car load of wheat to Minneapolis and received over \$400 a car more than I could get in Winnipeg for the same grade of wheat after paying ten cents a bushel duty."

"The low cost of the high cost of living has been going on all of the last summer, while beef, butter, milk and cheese were being produced on grass without grain—in fact, the greater part of beef, butter, milk and cheese produced in Manitoba is produced without grain. How does wheat affect the prices of coarse grain in the production of beef, butter, milk and cheese? In the tests that have been made in Winnipeg of the cost of food for a family bread costs about one-tenth of what the other foodstuffs for a family cost, while it supplies one-third of the food value needed for the family, showing that wheat at the present prices, is by far the cheapest food we use, and if wheat is the cheapest food we use, and if it is a regulator of food prices, why does it not bring the other foodstuffs prices down? A working man will wear four pairs of overalls and two smocks in a year, besides the pants he wears in winter, so my men tell me. The increase in price since 1914 is \$12 on four pairs of overalls and two smocks. A man can buy all the bread he needs for a year, according to the tests we have made, for \$11.58. I bought the suit I have worn for \$21 before the war. I can not get as good today for \$46. The difference of \$44 would buy all the flour for a family for five for a year."

"The average cigarette smoker smokes 25 cents worth of cigarettes in a day, which would more than keep a family of five persons in bread for a day."

Bread Still Cheap Food

"The cost of bread for a man in Winnipeg for a day would not buy half a drink of two per cent. beer, nor an ice cream cone. A banker told me recently he considered growing what the biggest gamble in this country, and it certainly is more risky than formerly. We grew wheat for over 30 years without black rust; beginning

with 1904, we have had four black rust years in 15 years. In November, 1914, wheat was \$1.22 1/2. Wages on the farm have more than doubled to the farmer, but the price of wheat has not doubled. If a banker looks on wheat as the biggest gamble in the country and what such a necessary food as it is for human beings, surely the farmer ought to have a fair price for his wheat. If the farmer has to produce at pre-war prices and pay war wages, he will soon be out of business, and what a great many seem to want is pre-war prices for what they buy and war wages when they work."

Willful and Inevitable Ignorance of the details of his department. On the other hand, if he did know the facts and sought to conceal them behind a letter from Secretary Petrie, he was guilty of something worse than forgetfulness. The provincial government has played too long with this important question of salaries in the civil service. The statement made by these returned men, employees of the government, is a stinging indictment of the administration and it is to be hoped that Mr. "Bob" Pearson will take the first available opportunity in the morning to bring the facts before the members and expose the hypocrisy of the attorney-general's department."

## Here's a chance for Farmers

The Canadian Council of Agriculture in session in Toronto, has made it clear that in a political way the farmers of the Dominion are headed for Ottawa. It will do no harm to Ottawa if a respectable number of the men of the land get there in the next general election."

## What the States said.

The state department of the United States has been telling the Allied powers what they should do with Turkey. At the same time the United States neglects to assume any personal responsibility in the Near Eastern tangle. Does not this seem somewhat inconsistent?

## Municipal District of Bow Island No 94.

March 8th, 1920, (cont.) adjourned to March 24th, 1920.

A Regular Meeting Adjourned of a Council held in the Municipal Office, Bow Island.

Present: Reeve Gragg, Deputy Reeve Hyland, and Councillors Pool, Chisholm and McFegor.

1. G.A. Pool That the Secretary Treasurer write to the Deputy Minister of Municipal Affairs and ask for information as to the intentions of Government to financing School Districts. Carried

2. A.W. Chisholm That C.P.R. bill for \$50.00 for demurrage on Hay and Out Cars be paid. Carried

3. R.L. McFegor That Mr. F.O. McKenna, the Solicitor for the council be instructed to write immediately to Mr. Warren of Winnipeg, Alberta to repair without delay the ditch which he dug across the Highway without any authority from this Council, between Sections 23 and 24 12-16 W. of 4th, Meridian and without expense to Municipal District No 94. Carried

4. A.W. Chisholm That the Sec. Treas. write the Government Seed Grain Commission, at Calgary, and find out why the 4 cars of Seed Oats have not been forwarded to Municipal District 94, Bow Island, and ask them to rush the cars along. Carried

5. G.A. Pool That this meeting adjourn until the next regular meeting of the council, at 2 p.m. 3rd April 1920, for general business. Carried

## Auction Sale

An Auction Sale will be held on the farm of George Allen on Sec. 28-9-11 on Wednesday 7th, April

The Building mentioned in posters can be seen at George Allen's place just south of the track.

## Pearson was right

Hon. J. H. Boyle seems to have been put in wrong by Secretary Petrie of the G. W. V. A. with respect to veteran employees in government offices. The attorney-general rather flattened old-fashioned men by Robert Pearson, soldier-member, about the wages paid by quoting a letter from Mr. Petrie in which thanks was returned for grievances settled. It took as if the government had scored heavily and Mr. Pearson was nagged for the moment.

But there is evidently something wrong somewhere. According to the signed statement of 19 veterans employed in government institutions in Calgary, the soldier member was absolutely right in his criticism and these men who are the victims of low salaries cannot understand why Secretary Petrie should have dictated such a letter as the attorney-general read to the house. They say the salaries paid by the government not only to veterans, but to most of the civil service staff in Alberta are a disgrace.

According to a statement presented by them there are three veterans in the land titles office in Calgary being paid \$83 per month, plus a \$15 bonus; one man with a family of five children is getting \$96 a month, plus the \$15 bonus. If the statement given by these men is correct (and there is no reason to doubt its accuracy) the provincial government is convicted of being one of the meanest employers of labor in the whole of Alberta.

More than this. The attorney-general must have known the facts in connection with this matter. If he did not know them he stands convicted of

## Do not forget to file your

## Income Tax Return

on or before the 30th of April, 1920.

## Dominion of Canada

## Department of Finance

ALL persons residing in Canada, employed in Canada, or carrying on business in Canada, are liable to a tax on income, as follows:—  
1. Every unmarried person, or widow, or widower, without dependent children, who during the calendar year 1919 received or earned \$1,000 or more.  
2. All other individuals who during the calendar year 1919 received or earned \$2,000 or more.  
3. Every corporation and joint stock company whose profits exceeded \$2,000 during the fiscal year ended in 1919.

## Forms to be used in filing returns on or before the 30th of April, 1920.

ALL INDIVIDUALS other than farmers and ranchers must use Form T 1.

FARMERS AND RANCHERS must use Form T 1A.

CORPORATIONS and joint stock companies must use Form T 2.

## Penalty

Every person required to make a return, who fails to do so within the time limit, shall be subject to a penalty of Twenty per cent. of the amount of the tax payable.

Any person, whether taxable or otherwise, who fails to make a return or provide information duly required according to the provision of the Act, shall be liable on summary conviction to a penalty of \$100 for each day during which the default continues. Any person making a false statement in any return or in any information required by the Minister, shall be liable on summary conviction to a penalty not exceeding \$100, or to six months imprisonment or to both fine and imprisonment.

## General Instructions.

Obtain Forms from the Inspectors or Assistant Inspectors of Taxation or from Postmasters.

Read carefully all instructions on Form before filling it in.

Prepay postage on letters and documents forwarded by mail to Inspectors of Taxation.

Make your returns promptly and avoid penalties.

Address INSPECTOR OF TAXATION, CALGARY, ALTA.

R. W. BREADNER, Commissioner of Taxation.

## ABOUT YOUR CHILBLAINS!

What are they? A mild form of frost-bite—a chilling of the part to such a degree that inflammation is set up, causing a tingling pain, excessive irritation and itching. Zamb-Buk cures chilblains by drawing out the inflammation and reducing the pain and irritation and reducing the swelling.

Miss Anna Lawrence of Navesdale, Ont., says: "I suffered agonies from chilblains and used many remedies but nothing gave me any ease until I used Zamb-Buk, which, after little perseverance, completely rid me of this painful ailment."

Regular applications of Zamb-Buk will prevent a recurrence of the trouble. Keep it handy. 50c. box.

## Zamb-Buk

### Canada's Status

Canada's international status has been determined by its inclusion in the League of Nations as a distinct national entity, possessing the same standing and voting power as is accorded to sovereign nations, and obligated to assume the same responsibilities and discharge the same duties as are laid on all other nations.

This is an almost revolutionary change in status to that existing prior to the Great War. When, on August 4, 1914, Great Britain declared war on Germany, Canada, in common with the whole British Empire, was automatically at war. The Canadian Parliament did not make a declaration of war; it merely took official cognizance of the fact that a state of war existed. It remained, however, for the Canadian Parliament to decide the extent of Canada's participation in the war.

In future, however, as a full-fledged member of the League of Nations, Canada will have a voice in deciding issues of peace or war. Canada's vote will count just as effectively as the vote of Great Britain, France, Italy or any other country. This means that, whereas formerly Canada had no foreign policy, because it was no in foreign affairs. It must decide issues of peace or war for itself.

This change in Canada's international status inevitably calls for some change in its position within the British Empire and in the relations hitherto existing between this Dominion and Great Britain. There are certain anomalies in the present relationship that are correct, but which in no wise weaken the ties of adding strength to the Empire.

Recognized as a nation within a League of Nations, Canada will have direct relations with all other nations and it is almost certain to follow that this Dominion will have its own accredited representatives at all capitals of other countries. The first step in the evolution of this policy is being taken in the appointment of a Canadian Minister at Washington. In the past, if the Canadian Government had representations to make to the United States Government it was necessary to transmit them to the Colonial Office in London, who in turn handed them over to the British foreign office, which sent them on with instructions to the British ambassador at Washington. Replies to such representations had to follow the same route, and all negotiations between Ottawa and Washington had to be conducted through London.

In future, we are to have direct dealings with the United States Government through a Canadian Minister at Washington.

Other important constitutional changes are up for discussion at Ottawa. Canada derives its constitution from the British Parliament, through

the British North America Act. Any alteration or amendment to that constitution can only be effected by the British Parliament upon address of the Canadian Parliament. It is now proposed that Canada shall be given full power over its own constitution, to amend it from time to time as the people of Canada conceive in their own interest it should be amended and without recourse to the British Parliament. Australia and New Zealand possess such complete power over their constitution, and the Dominion Minister of Justice is now in negotiation with the several Provincial Governments with a view to having representations made to the British Government and Parliament for the conferring of similar powers upon Canada.

The view had long been held by many Canadians that a change should also be effected in our system of judicial appeals. At present the final court of appeal for Canada is the Judicial Committee of the Privy Council in England. There is a growing belief that, so far as Canada cases are concerned, the Supreme Court of Canada should be made the final court of appeal—that it should be supreme in fact as well as in name, and that all the expense and delay inseparable from appeals to London should be obviated.

Slowly, but none the less surely, Canada and the other self-governing Dominions of the British Empire seem to be moving towards the ultimate goal of independence in all foreign affairs, just as they have long been independent in all domestic matters. This does not mean that Canada will sever its connection with Britain, nor withdraw from the Empire. Not at all. It has been decided that Canada and the British West Indies and British Guiana, and the French of Wales, Lloyd George and others, that Canada is now a nation, a partner of Great Britain, occupying a position of equality with Britain in the Empire. If this is true, and no one disputes it, then existing anomalies and personal interests, their future relation to this Dominion or Great Britain may be left to take care of itself. The trade of the West Indies would be of great advantage to us, and they could with much profit purchase from us.

"Their trade and population are both growing rapidly. Moreover, the social status of the people is rising rapidly. Under scientific management the future of these countries with their fertile soil and natural resources is bound to be prosperous. It will be to our advantage to cultivate their friendship, and to our interest to be generous to them in trade."

"It would be good policy for the Dominion Government and the Canadian boards of trade to direct the attention of the Canadian people to their very near neighbours of ours within the Empire."

### Flax A Popular Crop in Alberta

Will Receive More Attention Owing To Experiments on Behalf of Government

The growing of flax in Alberta, it is expected, will receive more attention than ever before primarily owing to the experiments that were made last year by some growers on behalf of the flax industry. The idea was then that the shortage of flax fibre for the manufacture of linen in this country could be made up with advantage by flax grown in western Canada. The experiments were successful, and the fact that the flax grown in this country is of the exceptionally early frost but while this was so it gave rise to the suggestion that the fibre could in any case be used for the manufacture of binder twine.

A special threshing machine has been invented which while dealing with the seed in a very thorough fashion does not injure the stems. With the flax seed at about \$5.15 a bushel of fifty-six pounds, and what could be obtained for the fibre, which it is estimated would be at least \$10 a ton, flax growing is now keenly interested in flax growing. One prominent Alberta farmer alone is seeding 1,000 acres this year with this product.

A woman can get a man to do anything she wants him to do if she has tact enough to induce him to talk about himself.

## Children Should Never Drink Tea or Coffee.

They are harmful to growth and development and have a particularly bad effect on the nervous system of the child.

Give the children

### Canada's Relations With West Indies

Will Be To Our Advantage To Cultivate Their Friendship

Sir Robert Falconer, K.C.M.G., President of the University of Toronto, writes to Montreal to emphasize the importance of the work that T. B. Macaulay, of this city, is doing in trying to create better relations between Canada and the British West Indies and British Guiana. "Today," says President Falconer, "the British West Indies are almost dependent economically upon the United States, and the trend of all their trade, including that of British Guiana, might easily and quickly be diverted thither. If Canada can bind the West Indies and British Guiana to herself by trade and personal interests, their future relation to this Dominion or Great Britain may be left to take care of itself. The trade of the West Indies would be of great advantage to us, and they could with much profit purchase from us."

"Their trade and population are both growing rapidly. Moreover, the social status of the people is rising rapidly. Under scientific management the future of these countries with their fertile soil and natural resources is bound to be prosperous. It will be to our advantage to cultivate their friendship, and to our interest to be generous to them in trade."

"It would be good policy for the Dominion Government and the Canadian boards of trade to direct the attention of the Canadian people to their very near neighbours of ours within the Empire."

### Any Woman Can Do And Keep in Style

"Diamond Dyes" Turn Faded, Shabby Apparel Into New

Don't worry about perfect results. Use "Diamond Dyes," guaranteed to give a new, rich, faded color to any fabric, whether it be wool, silk, linen, cotton, mixed goods, coverings, blouses, stockings, skirts, children's coats, hats, dresses, aprons, coverings—everything.

The Direction Book with each package tells how to diamond dye any color.

To match any material, have dealer show you "Diamond Dye" Color Card.

### The Submarine Failure

How Great Britain Successfully Grappled With the War-Time Menace

Mr. Archibald Hurd, recognized throughout the world as a naval expert of great judgment and foresight, has been writing of late upon one of his favorite topics, the submarine, and he points out that, at first, it appeared as though it might succeed, for it was a departure which took not only British seamen, but all seamen of the world, by surprise. No provision had been made by either the British, French, Italian, American, Japanese or other naval authorities for countering the submarine employed as the Germans employed it. Lord Jellicoe in the emergency was recalled from the Grand Fleet, and on becoming First Sea Lord, this officer, in association with Vice-Admiral Sir Alexander Duff and other experienced seamen whom he brought with him from the North, devoted himself to the problem of countering the German submarine. The extent to which the submarine was mastered is partially revealed in the figures of the sinking of merchant tonnage. In April, 1917, 516,000 tons of British shipping were destroyed, but in October, 1918, with more courage afloat, the sinkings had fallen to 54,575 tons.

### Alberta Potatoes for California

Recognition of Quality of Product

Grown in Western Canada

Now markets for the potato crop of Alberta have been opened up by the shipment of a whole carload of potatoes consigned from Edmonton to San Francisco.

This shipment practically constitutes the first consignment of the kind ever sent from Edmonton direct to the Pacific Coast. While eastern markets have been plentiful in the past, direct orders for potatoes from California points have seldom reached this city and the placing of such a shipment with a city such as San Francisco is a recognition of the quality of produce grown in the province.

The first public performance on a piano was given in London over 150 years ago.

Many a train of thought carries no freight.

### A SPRING TONIC AIDS EFFICIENCY

Lay Foundation of Good Health Now By Building Your Blood and Strengthening Your Nerves

The good old fashion of taking a tonic in the springtime, like most of our customs of our grandparents, is based upon sound common sense and most modern scientific research. It is a way of trying time, for those who are not in rugged physical health. Many men, women and children go through the winter on reserve strength they have stored up during the summer months, and grow increasingly weak and languid as the spring days grow, through up to the time when the nerves at this time will do good for the body, strengthening the blood and the nerves, and banishing that tired feeling which troubles thousands of people at this season of the year.

It is impossible to be energetic if you blood is thin and weak, or if your nerves are frayed or shattered. You cannot be strong if you do not get refreshing sleep at night, or if your appetite is poor or you are losing weight. You need a tonic at this time to add to your efficiency now, as well as to save from suffering later on. And in all the realm of the body, there is no better tonic than Dr. Williams' Pink Pills. These pills tone and enrich the blood which circulates through every portion of the body, strengthening the nerves and the muscles, and bringing a feeling of new strength and energy to weak, easily tired, "despondent" men, women and children.

Mrs. J. M. McNeil, Chase Bay, N.S., writes: "I have never been so well as I have been since I took Dr. Williams' Pink Pills. I have had good reason to praise them highly. Following an attack of grippe, I was left in a badly run-down condition. I had no appetite and felt so weak I could scarcely go about my house. I was taking medicine but it was not helping me. A friend advised me to try Dr. Williams' Pink Pills. I used them for a few days with the most beneficial results. My appetite improved, my strength returned and I was soon able to do all my household work. I now use the pills every spring and find them a wonderful strength-bringing tonic. I have recommended the pills to my friends who have used them with good results."

Dr. Williams' Pink Pills are a tonic, not a stimulant. They build up the blood, and through their use put out the disastrous after effects of influenza, but also through their use, blood, such as anemia, rheumatism, indigestion and the generally worn-out feeling that affects so many people, disappear. You can get three pills worth \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

### FREE PREMIUMS 2 for 1

Royal Crown Soap Premium Coupons Have Double Value From May 1st to May 31st.

If you have fifty coupons they are equal to 100. If you have 75 they are as good as 150, and so on. ### The Right Course

Work of Instructing British Columbia's Farmers of Tomorrow

Agriculture under competent teachers along practical lines is taking an increasingly important position in the curriculum of the public schools in the different municipalities of the lower Fraser Valley of British Columbia.

At the present time the class in agriculture of one of the high schools are taking a course in the proper feeding of live stock and are getting an insight into the different values of the various kinds of feeds for cattle, horses and sheep.

Last month the pupils were gaining useful knowledge about soils, their properties and fertilization. Ten schools in the same district are busy preparing plans for the school gardens. Poultry raising and the care of calves and pigs are also on the school program.

The teaching of nature-study in the class-rooms, the practical work of the school and home garden, and the emphasizing contents of school farms are all factors which tend towards the development of the boys and girls of today, and will greatly assist them in becoming efficient farmers and farm-ers' wives in the coming years.

Minard's Liniment Cures Rheumatism.

### Canada's Tire Production

Figures made public in Montreal show that there were about 20,000 automobile tires manufactured in Canada last year, requiring about 8,000,000 square yards, or 12,000,000 to 16,000,000 pounds of tire fabric, and that only about one third of the fabric required in manufacture of these tires was made in Canada. The remainder came from the United States. Increased production of tire fabric is now aimed at.

### Lift off Corns!

Don't hurt a bit and Freezone costs only a few cents.

With your finger! You can lift off any hard corn, soft corn, or corn between the toes, and the hard skin callous from bottom of feet. A tiny bottle of "Freezone" costs little at any drug store; apply a few drops upon the corn or callus. Instantly it stops hurting, then shortly you can rub the blistered corn or callus off right, root and all, without pain or soreness. Truly! No humbug!

To Reform the Movies

The New York Presbyterian board of temperance and moral welfare is planning to reform the "movies," and will issue a "white list" of approved pictures from time to time. They declare that a canvas among wardens and chaplains showed that most of the juvenile delinquency was due to moving pictures which exploited crime.

Some men even like to brag about what they owe.

Health is real wealth.

## PIMPLES ITCHED AND BURNED

Face Was Badly Disfigured. Cuticura Soap and Ointment Healed.

"Small red pimples and blackheads began on my face, and my face was badly disfigured. The pimples were so itchy that I scratched them with my fingers, and where the pimples were scratched, there were places where the pimples were in blotches. They used to itch and burn terribly. I saw an advertisement for Cuticura and I tried them. They stopped the itching and burning and I used four cakes of Soap and three boxes of Ointment which healed me." (Signed) Miss V. A. Hayes, Brockville, N.S., Dec. 26, 18.

The Cuticura Toilet Tissue, consisting of Soap Cuticura and Cuticura Ointment, is a perfect skin cleanser, and is used for the face, neck, and body. It is sold by all druggists and is the best for the face, neck, and body. It is sold by all druggists and is the best for the face, neck, and body.

## Additional Bow Island North

From our own Correspondent  
Another sign of spring, these peering  
bussing hoes, they have a  
habit of falling into one's bread dough,  
or other culinary concoction, in their  
vain attempts to take wing.

"Aint it a grand and glorious feel-  
ing"—this spring weather with its  
rainy day today and a foot of snow  
tomorrow. We have nauts to get these  
goods when it comes down to the  
ideal climate (?)

Mr. Chas. Thompson has been busy  
of late hauling hay from own busy  
little city to his farm north of town.

The roads are certainly in bad shape  
but one cannot expect anything else  
after so much snow having fallen in  
the last few weeks.

We hear Ted Ren moved the house  
over to the old homestead from his  
newly acquired quarter, north of river  
school house. Bert Mayberry's "oil  
pull" turned the trick.

The gophers are appearing in their  
thousands, even blizzards do not dis-  
courage them, evidently they have  
had sufficient winter for one year;  
they are not alone.

We are glad to report that Mrs. C.  
E. Johnson has completely recovered  
from her illness of a week or so ago.

Richard Edwards, who is farming  
the Brophy farm south of Bow Island,  
made a visit to the southern extremity  
of this district and relieved Mr.  
Bill Allan of some fine young Red  
Hocks, game Dick must be figuring  
on chicken ranching.

It is reported that the people who  
rented Mr. H. Smith's cottage a few  
weeks ago, have decided to return  
back to Chin, Alberta.

The Rev. Mrs. Rybil, of Winnifred,  
left last week for to join her hus-  
band at Lacombe.

Remember the Ho-sell Club Dance  
on Friday April 9th.

"Another Gentle Hint"  
Do you still subscribe to your local  
paper? If not, you know you should.  
Don't let the price stand in your way.  
You'd enjoy its news, you know you  
would. It's the little things that count  
in life, as our granddads used to say;  
so send along your subscription. Do  
it now—yes—start today.

The St. Patrick's Entertainment  
that was postponed on account of the  
prevailance of the flu will be held at  
St. Michael's Hall Bow Island on  
April 7th at 8:30.

## News from far and near.

According to a cable dispatch the  
Canadian government has not refused  
an offer of the imperial government  
of a number of war vessels. The last  
information from Ottawa was that the  
whole Canadian naval outfit was to  
be scrapped. In view of the belated  
situation the sooner the government  
comes forward with its plans for the  
future of our naval activities the  
better. The uncertainty is trying and  
unnecessary.

A normal school graduate in Calgary  
lately wrote to a country school board  
asking the salary they were willing  
to pay for his services and received a  
reply stating that \$1200 a year was  
the outside figure. He wrote saying  
that he understood that the farmers  
in that district paid their men to feed  
hogs \$75 @month and board, and as  
the teacher's stipend only figured out  
at about \$80 a month, without board,  
he, therefore, recommended them to  
quit raising children and concentrate  
on hogs. Can you blame him?

Some people are objecting because  
the education department, which has  
been loaning money to teacher stu-  
dents does not lend to students who  
want to become doctors, lawyers, etc.  
It is just possible we have a suffi-  
ciency of doctors and lawyers in Al-  
berta. We have too few teachers.

## DATES for AUCTION SALES

If you intend to have a Sale,  
be sure you leave the date at  
Review Office, Bow Island  
for D.M. Garrison Auctioneer
